# Our Commitment

**Nurturing Growth, Naturally.**

**Empowering Sustainable Industries.**

**Together for a Greener Tomorrow.**

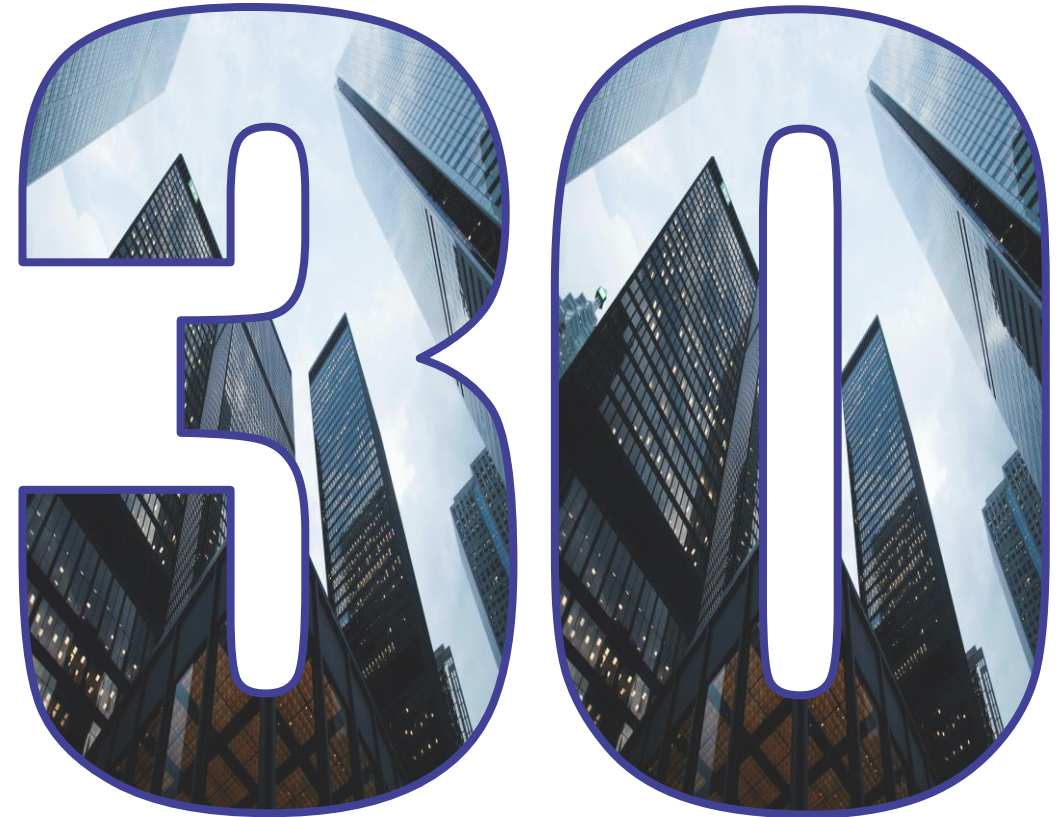

# About Us

**NIPO Hygienics LLP** is a dynamic and innovation-driven company specializing in cleaning and hygiene chemical solutions tailored for the B2B sector. We at NIPO Hygienics cater to the diverse and demanding needs of housekeeping, kitchen, and laundry hygiene across industries such as hospitality, healthcare, institutions, and commercial facilities.

Founded by industry veterans with over **30 years of deep-rooted experience** in the cleaning and hygiene sector, our promoters bring unparalleled insight into the **Indian market** and **customer behavior**. This expertise enables us to offer solutions that are not only effective but also highly relevant to the evolving expectations of Indian businesses.

**30 years of deep-rooted experience**

# We Believe

At **NIPO Hygienics**, we understand that **cleanliness is no longer a luxury — it is a necessity**. Our product range is thoughtfully developed to meet these regulatory standards while ensuring operational efficiency and sustainability.

We believe in creating long-term partnerships by delivering performance-driven, environmentally responsible, and cost-effective solutions — helping organizations uphold the highest standards of hygiene with confidence.

"Symbolizing care, hygiene, and protection — the essence of our commitment to a cleaner, safer world."

# Our Strategic Pillars of Hygiene Excellence

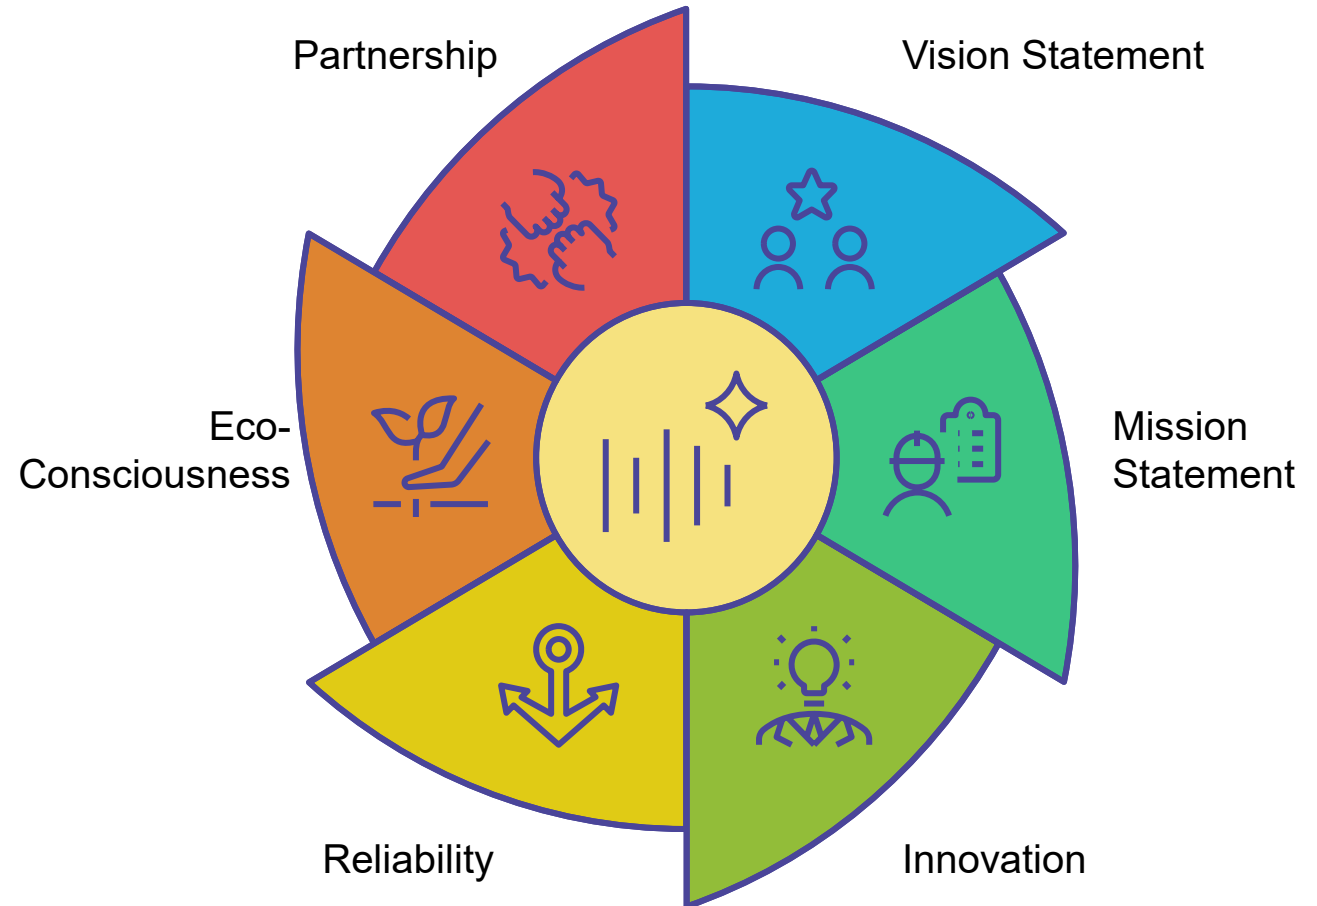

## Vision Statement:

"To be the trusted backbone of hygiene excellence in every professional space — empowering industries with sustainable, science-driven cleaning solutions that redefine safety, efficiency, and environmental care."

## Mission Statement:

"We deliver cutting-edge cleaning chemical solutions tailored for the B2B sector — specializing in housekeeping, kitchen, and laundry care. Through innovation, reliability, and eco-conscious formulations, we partner with organizations to elevate cleanliness standards, optimize performance, and ensure long-term value across every touchpoint."
